Thank you very much. If you could sent it to Ms. Barrette at abarrette@fulbright.com I would appreciate it. Our family has no issues with the EPA our issues are with the litigants. They seem to continuously make statements that are untrue about our water and us. Once again we thank you for taking the time to take the water tests and to come and explain them to us. Unlike some people we are very happy to hear once again that our water tests fine. It's a shame that in the beginning nothing was done for us. We were more than happy to work with the gas company to have our water fixed. It is disterbing to us that some people seem to want to have their water contaminated so badly and are unhappy that it isn't. Their actions make it so we may never trust our water to drink it again since our wells are only about 200 - 300 ft apart. Thank you once again and have a very nice day,

Hello

I've heard about the video, but thank you for forwarding the link. Regarding EPA's video, please note we are currently considering whether to release it publicly.
I also wanted you to know that EPA has discussed specific well sample results only with the individuals using that specific well.

I appreciate you kind words.

Thank you again,

Hi Ms. Taylor. I'm going to guess that you have seen the video in the link I am sending you if not maybe you heard about it. <http://vimeo.com/41848980>

The video seems to have been taken while the EPA was giving the test results to our neighbors. It also seems that our water/well were quite a topic of discussion. To our knowledge our treatment system works fine and we do not have a well that went bad. For some reason these people seem to think otherwise and also make it seem that they got their information about our water/well from the EPA. My family and I wouldn't think that would have happened. Anyway in the video it seems that the EPA made a video of their own. I wanted to know if a copy of the video made by the EPA could be sent to an attorney for us? The attorney is a very nice woman named Amy Barrette. Amy works for Fulbright and Jaworski LLP and her email address is abarrette@fulbright.com. I also want to appologize for the way the EPA was treated in the above video. It was very nice of you to take time out of your day to go and give these people their test results and explain them. It's a shame some people don't seem to have any manors. I know our family was very happy to hear that our water didn't have any issues. Thank you very much for your time.

Thank you again and have a nice wkend.
